

# Solutions for Ultra-Low Particle Emissions

## Ball screws and linear guides for leading-edge semiconductor processing “Beyond 2nm”

### Features

#### 1. Low particle emissions

~99% reduction in dust emissions over conventional products

#### 2. Low outgassing

Designed for vacuum environments

#### 3. Long life

Higher durability than with fluorine grease

#### 4. Eco-friendly

Compliant with PFAS regulations or fully PFAS-free
