Subject: **Statement Regarding Compliance with Regulation (EU) 2025/40
on Packaging and Packaging Waste (PPWR)**

To whom it may concern,

NSK Europe Ltd acknowledges the requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR), applicable from 12 August 2026, and confirms that it is implementing the processes and controls necessary within its European operations to ensure compliance with the applicable obligations relating to packaging placed on the market in the European Union.

Due to NSK's extensive product portfolio and the corresponding wide range of packaging materials and packaging formats used, it is not our intention to routinely provide individual Declarations of Conformity to customers in response to PPWR-related enquiries, unless such provision forms part of agreed contractual obligations. This statement should therefore be regarded as confirmation of NSK's commitment to compliance with the requirements of Regulation (EU) 2025/40.

Specifically, we confirm that:

1. Packaging supplied with our products is subject to internal compliance management processes designed to meet applicable PPWR requirements.
2. Technical documentation supporting packaging conformity is being collected, maintained and retained in accordance with the requirements of Regulation (EU) 2025/40.
3. Declarations of Conformity, where required under Regulation (EU) 2025/40, are being prepared and maintained in accordance with Article 39 and Annex VIII and will be made available to Market Surveillance Authorities upon request and to customers where contractually required.
4. Information necessary to demonstrate compliance is being obtained through supplier management processes, material specification reviews and internal assessments.

NSK Europe Ltd.

This statement reflects the status of NSK Europe's PPWR compliance programme as of the date of signature and applies to packaging placed on the market by NSK Europe Ltd within the scope of Regulation (EU) 2025/40.
