NSK Report 2017

NSK issued its second integrated report, "NSK Report 2017" last year. Following the previous year's "NSK Report 2016," this marked the second consecutive year that NSK was recognized with the WICI Japan Award for Excellence in Integrated Reporting.

NSK Report 2017

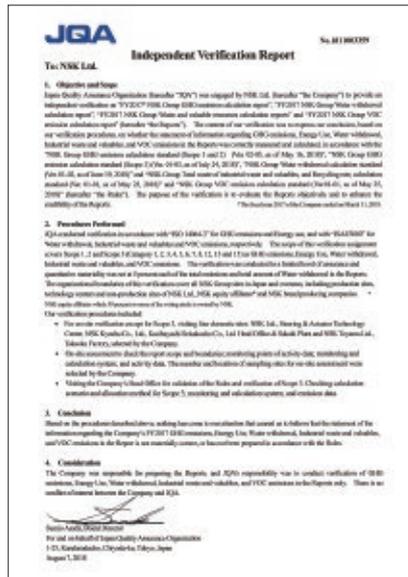

Third-Party Assurances

To ensure the reliability and accuracy of NSK Report 2018 as an integrated report, NSK obtained assurances from an external third party for the following data information described in this report.

- Energy Use (P. 50)
- Water Withdrawal (P. 50)
- Greenhouse Gases Emissions (Scope 1, 2 and 3) (P. 50)
- Total Waste (P. 50)
- VOC Emissions (P. 50)

Independent Verification Report

Independent Assurance Statement

At the Time of Publishing the NSK Report 2018

In 2016, the year NSK celebrated the 100th anniversary of its establishment, the Company published its first integrated report with the goal of supporting readers in gaining a deeper understanding of NSK's mid- to long-term value creation process. Two years have passed since that first publication, and we keenly feel that through this integrated report there has been an increase in the number of opportunities for constructive dialogue not only with shareholders and investors but also with our employees and all our stakeholders.

"NSK Report 2018" marks our third integrated report. For this edition, we have made "Setting the Future in Motion" as the theme that represents the vision of how we see ourselves a decade after our 100th anniversary. In this year's publication, we hope to convey, to some extent, the story of NSK's value creation, specifically, the creation of value for automobiles,

which are undergoing dramatic technological once-in-a-century advances, as well as our initiatives toward CSR/ESG management, which looks to realize a sustainable future. Also, through an interview with the head of technology, we will introduce the "strength of our fundamental technologies," which is one of our capabilities that supports NSK's corporate value, as well as the "Future in Motion" upon which we are currently taking action.

For this report, not only the members of the departments in charge but also various involved parties working together gave consideration to NSK's value creation framework and future, and jointly worked on the report. As the executive officer responsible for the creation of this report, I expressly stated that the production process be valid and the information contained herein be accurate.

Looking to the future as well, NSK will work to further enrich the

content of the NSK Report and will use it as a tool for dialogue with stakeholders. I would be delighted to receive the frank views and requests of everyone who reads this report.

Director, Senior Vice President
Head of Corporate Planning
